Signalling for Technicians

Module 3

Principles of Track Circuit Operation

This page is intentionally left blank

Contents

1	**About this Open Learning Module**	**1**
2	**Track Circuit Basic Concepts**	**5**
	Introduction	5
	The Train Detection Handbook (TDH)	7
	Section Summary	8
3	**The Components of the DC Track Circuit**	**9**
	Introduction	9
	Rails and Bonding	11
	Track Circuit Interrupter	16
	Power Supply	17
	Feed Resistance	17
	Track Relay	18
	Section Summary	19

4	**Operation of the DC Track Circuit**	**21**
	Introduction	21
	Track Circuit Unoccupied	21
	Track Circuit Occupied	24
	Bonding	26
	Section Summary	30
5	**Ballast Resistance**	**33**
	Introduction	33
	Drop Shunt Value	37
	Drop Shunt Test	37
	Section Summary	39
6	**DC Track Configuration**	**41**
	Introduction	41
	Double Rail Operation	42
	Single Rail Operation	43

	Common Rail Operation	44
	Staggering	46
	Section Summary	49
7	**Other Types of Track Circuit**	**51**
	Introduction	51
	AC Track Circuits	51
	Audio Frequency Track Circuits	58
	High Voltage Impulse (HVI) Track Circuits	63
	Section Summary	65
8	**Module Summary**	**69**
9	**Self Test Questions**	**71**
10	**Answers**	**79**
11	**Glossary of Terms**	**93**
