Signalling for Technicians

Module 4

Principles of Point Operation

This page is intentionally left blank

Contents

1	**About this Open Learning Module**	**1**
	Requirements laid down by the Department of Transport	5
	Introduction	5
	Department of Transport Requirements	8
	Section Summary	11
	Types of Point Layout	13
	Introduction	13
	Point Layouts	15
	Point Configurations	19
	Point Configurations	34
	Section Summary	38
	Stock Rails and Switch Rails	41
	Introduction	41

Stock Rail	41
Switch Rail	42
Section Summary	47
Methods of Point Operation	49
Introduction	49
Mechanical	49
Electrical	54
Electro-Pneumatic	54
Hydraulic	55
Practical Examples	55
Section Summary	56
Combined Point Machines	59
Introduction	59
The GEC HW 2000 Point Machine	60
Operation of the GEC HW 2000 Point Machine	63
The Westinghouse Style 63 Point Machine	70

Operation of the Westinghouse Style 63 Point Machine	73
Motors	77
Section Summary	78
Non-Combined Point Machines	81
Introduction	81
The SGE Type HA Non-Combined Point Machine	81
Operation of the SGE Type HA Non-Combined Point Machine	84
Section Summary	86
Electro-Pneumatic Point Machine	89
Introduction	89
Components of the SGE Electro-Pneumatic Point Machine (AC Immune)	89
Manual Operation of the SGE EP Points	102
Section Summary	103

9	**Rail Point Clamp Locks**	**105**
	Introduction	105
	Components of the Rail Clamp Lock	107
	Operation of the Rail Point Clamp Lock	108
	Section Summary	113
10	**Facing Point Lock and Detection Tests**	**117**
	Introduction	117
	Facing Point Lock Test	118
	Points Detection Test	119
	Section Summary	121
11	**Insulation Methods**	**123**
	Introduction	123
	Details of Insulation Methods	123
	Section Summary	131

12	**Back Drives**	**133**
	Introduction	133
	Mechanically Operated Back Drives	133
	Hydraulically Operated Back Drives	136
	Section Summary	138
13	**Module Summary**	**139**
14	**Self Test**	**141**
15	**Answers**	**145**
	Introduction	145
	Answers to Self-Assessment Questions	145
	Answers to Self Test Questions	153
16	**Glossary**	**157**
